2:00 PM Support Group

*Dina Wiley, PhD, California State Leader*

GIST  
DAY OF  
LEARNING  
*San Diego*

## September 24, 2022

### ABOUT GDOL

A GIST Day of Learning (GDOL) is a free, one day event to help patients and caregivers learn more about this rare cancer, find support, and enhance their knowledge base to help them navigate their cancer journey.

The Life Raft Group has a simple focus: to cure a form of cancer – GIST – and to help those living with it until then. To do this, the Life Raft Group focuses on three key areas: research, patient support & education, and advocacy, which lay the foundation of our mission to ensure the survival of GIST patients through a comprehensive approach connecting individual patients' needs, the worldwide community of GIST advocates and the global health and research environment.

### LOCATION

Moore's Cancer Center at UC San Diego Health  
Goldberg Auditorium  
3855 Health Sciences Drive  
La Jolla, CA 92037
